# EMERALD CUBICLE COLLECTION

The Emerald Cubicle Collection by SKUTCHI Designs Inc. is a comprehensive solution for modern workplace cubicles and workstation furniture. This versatile system features exceptionally durable, powder-coated aluminum frames and 2½"-thick tackable fabric panels, available in heights of 39", 52", or 65"—perfect for creating both individual and collaborative workspaces.

With hundreds of customizable configurations, the Emerald Cubicle Collection offers a wide range of fabric colors, tempered glass panel tops with optional decorative films, and work surfaces in various laminate finishes.

SKUTCHI Designs Inc. specializes in modular cubicle systems that support endless combinations of colors, glass styles, and work surfaces—ideal for teams of any size. Flexible connectors (straight, 2-way, 3-way, or 4-way) make it easy to design L-shaped, U-shaped, enclosed, or 120-degree workstation layouts to suit your unique needs.

Beyond panels, the Emerald Cubicle Collection includes an extensive lineup of ergonomic furniture and accessories, such as sit-to-stand desks, locking file cabinets, adjustable shelving, overhead storage with locking options, dry-erase boards, padded-top benches with built-in storage, paper organizers, bookshelves, and accessory rails.

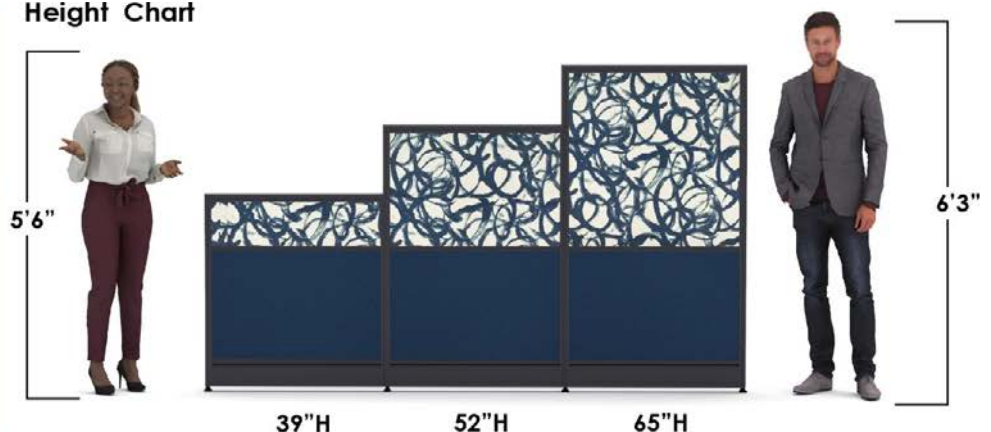

For workspaces requiring power or data connectivity, integrated raceway conduits provide clean, concealed cable management for electrical and network wiring.

In short, the Emerald Cubicle Collection is an all-in-one modular solution designed to grow and adapt with your workspace. Its components can be expanded, rearranged, replaced, or shared between workstations with ease.

All materials meet or exceed the safety and durability standards set by the American National Standards Institute (ANSI) and the Business and Institutional Furniture Manufacturers Association (BIFMA).

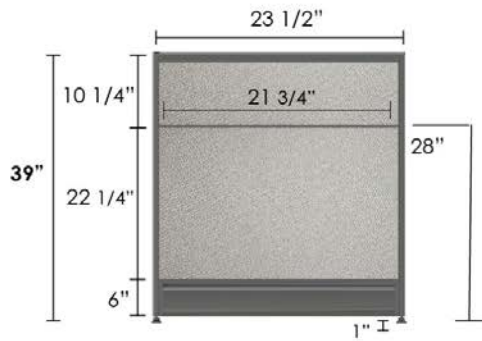

- 2 1/2" Thick Panel walls
- Optional Panel Finishes: Tackable fabric
- We offer glass tops (12" and 24" heights) to give a feel of open space and natural light
- Single hinged 6"H cable channel for wire management on the bottom of ea. panel.
- Panel heights: 39", 52", and 65"
- Custom and quick-ship options available
- Fabric ISO 9001
- Electric: UL Listed
- ANSI/BIFMA

Emerald Cubicle Collection Electric  
Raceway - Open without electric

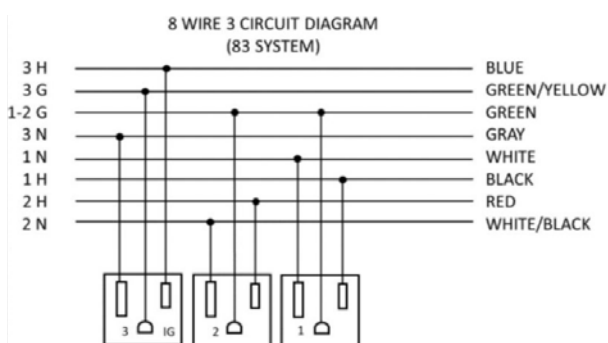

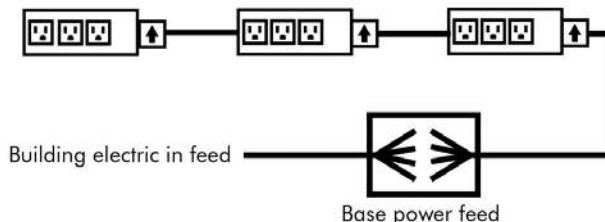

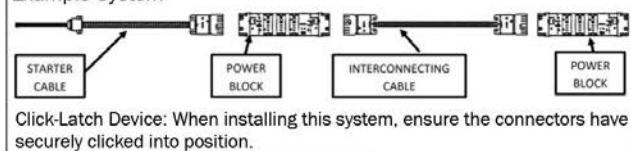

## ⚠ FINAL CONNECTION IS DONE BY A LICENSED ELECTRICIAN

**WARNING:** Risk of fire or electric shock. As with all non-directional systems, do not electrically connect panel to more than one supply source. Always determine that the panel is electrically connected to one and only one source of supply. Before using any equipment, check the entire system for polarity, continuity, and grounding integrity.

Example System

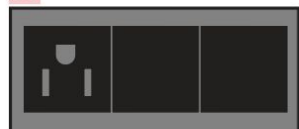

### Power Supply Connection

The Power System is an eight wire system consisting of four individual circuits rated at 20 amps/120 volts maximum. Circuit 1 (black), circuit 2 (red), and circuit 4 (pink), are served by a system neutral (white) and an equipment ground (green). Circuit 3 (blue) uses an isolated neutral (gray), and an isolated ground (green/yellow). The system may be supplied by a three phase power system with four individual circuits rated 20 amps/120 volts maximum, or as permitted by local code.

**When connecting electric pass throughs to power moduls, please make sure ARROW is up**

**Care & Cleanability**

Cleaning code **W** - Spot clean only with water-based upholstery shampoo or foam upholstery cleaner. Pretest a small, inconspicuous area before proceeding. Do not over wet. Do not use solvents to spot clean. Cushion covers should not be removed and laundered. When cleaning a spill, blot immediately to remove the spilled material. Evenly clean the entire panel in a seam to seam fashion. Do not clean just the spots or stains. When an overall soiled condition has been reached and professional care is required, contact an IICRC certified firm ([www.iicrc.org](http://www.iicrc.org)).
